Type of Staff	Total Numbers	Men	Women
Regular	6 full time head office staff and 7 field staff	9	4
Contractual	4	4	0
Volunteers	89	54	35

THE FOLLOWING ARE THE ACTIVITIES WHAT WE ARE DOING:

INDIA'S 1ST AUTO AND BIKE AMBULANCE SERVICE: (2ND CORONA WAVES)

We have introduced India's 1st Oxygen Auto ambulance Services for the patients who were affected by COVID-19. In those days, nobody was ready to take the patients into the Auto. But Our Trust Voluntarys handled the patients with proper Hand Sanitizer and Face masks. We have modified(Our own Designing cum Engineering works) our auto for the Oxygen cylinder fixing & kept with proper medical first aid kit to reach the hospital as quickly as possible along with COVID-19 Patient. In addition to that we have given the modified Autos (more than 20 Autos) to the Outsiders at free of cost.

“In the month of Apr'21 to June'21 we have saved around 710 lives supported by 50 volunteers”

In addition to our AUTO AMBULANCE SERVICE, We have introduced another dimension to **FREE BIKE OXYGEN AMBULANCE SERVICE**. We have saved many lives during the critical Corona Peak time through Bike Ambulance service

VACCINE AWARENESS CAMPAIGN:

Whatever we have saved so many lives, we have not been able to save the lives of more than sixty people. We have found the cause of the tragedy of so many people lying dead in our laps. We realized that Vaccination and following safety guidelines is the only solutions to protect our self from this Covid19. So that we have implemented Vaccine awareness program by vehicle to reach all backward villages and town in Tamilnadu“

Vaccination builds protection; COVID-19 Vaccines help keep you from getting COVID-19. They produce immunity and are effective at pre venting the disease. Hence we have started a state wise campaign on COVID-19 Vaccine awareness in our campaign vehicles to reach Government initiatives to the nook and corner of the state. In fact, our team along with our campaign vehicles reached many interior villages and small towns. Around 2000 people took the vaccination through our campaign in those days.

Kadamai Trust's Free Clinic:

We are running a Free Clinic in North Chennai (Tondiarpet) for the poor range of people who are not able spent for medical facility during the **CORONA FIRST WAVE**. we have deputed a certified doctor to examine and treat the patent for the right time with necessary medicines, tablets & Injections prescribed by the doctor at free of cost.

In fact we have distributed Hand sanitizer & Face masks for the patients who are coming to our clinic at free of cost.

Free Education:

We are providing a Free Education for the student (Academic syllabus) as well as Computer education for the economically weaker section students. In addition to that we are giving a basic education for the illiterate housewives who are living in North Chennai for their self surveillance.

In fact, we have a computer Lab with 8- 10 computers managed by well trained staff.

Blood Donation:

We have around **300 volunteers** for regular blood donation in a periodical interval. Also we have a tie-up with familiar Government hospitals in Chennai Headquarters. We are having a database based on the Donor blood group, name, Mobile number etc...Till date we have given around **2000 units** of blood to the various hospitals on their request for their critical operation to save patients' lives.

Women empowerment Program:

We are giving Computer training to the educated housewives for their employment. Also helping / guiding them for their employment opportunities through our channels.

Tree Plantation (An Environmental Awareness)

MATTIRATHIRKANA THIRAVUKOL

We have carried out a mass tree planting campaign every year with our volunteers to reduce carbon emissions and combat climate change. We have reached around 10000 plantations in Chennai city in the last five years.

Disaster Management (Cyclone Period)

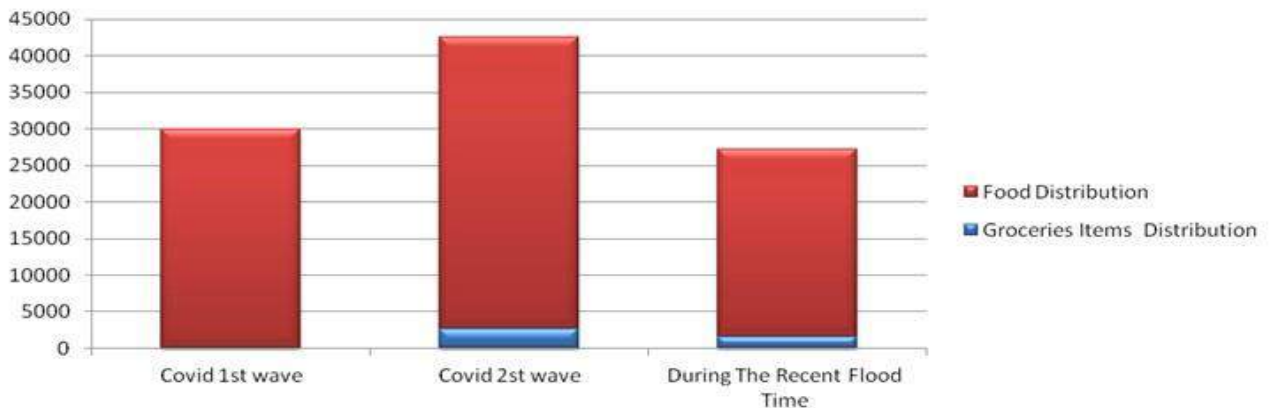

Normally in the monsoon times, cyclone, Heavy rain & Flood are the regular chain. Hence we have to handle it in a proper way with our Government authorities.

Hence, our trust is taking boats on rental basis to take out the residents from their flooded area. And we have given necessary items like food, Groceries, for the needy people.

Recently in the second week of Nov'21, we had a cyclone. Many places in Chennai were affected / Covered by flood. Hence our trust team gave necessary food items, Mosquito coil and Candle etc. Also we are doing any kind of Emergency service from time to time. Like issuing free sanitizer & Face masks etc.

FOOD ASSISTANCE:

We have distributed the following Natural Disaster Situation.
